

# HAUTE LIVING

THE NEW STANDARD FOR LUXURY

The Irresistible Hawker 400XP

## Palms Jet Pass

Regent Jet, pioneer of private jet hedging and private aviation industry leader, presents the first private jet card program aimed directly at the niche market of New York to Florida travel. The Palms Jet Pass is the first membership card that brings together travelers juggling similar east coast itineraries.

Card holders need only book their flight 24 hours in advance of take-off and choose an executive terminal in a wide range of cities in the metropolitan area surrounding New York or a smattering of cities in South Florida. West Palm Beach to East Hampton is just as easy as White Plains to Fort Lauderdale.

Regent Jets will furnish the aircraft-either a seven-seater Hawker 400XP or a slightly larger nine-seater Hawker 1000. Travelers will be airborne in 15 minutes and on the jet way of their destination in around 2 hours and 30 minutes-altogether less time than one might wait to board a commercial flight.

With gourmet catering aboard-think piping hot lobster bisque-and around the clock concierge service, Regent Jets ensures the luxury quality of members' travel. An entry level package starts at \$50,000 for five one way flights aboard the smaller Hawker 400XP or individual one-way flights can be booked for 12,000.

In just a year, Regent Jet has established a reputation for safe and reliable travel as one would find in fractional ownership, with the flexibility and freedom one could only find in on-demand charter.

In short, it has never been so easy to fly south for the winter or maybe just the weekend.
